

Biodiversity – top priority or add on

Alma Skjold Knudsen: ask@vandcenter.dk

Anthropologist, VCS Denmark

The Danish water sector is working towards an understanding of what biodiversity means to us

ESRS-emner	Key words	Antal be- sva- relser	Væ- sentlig	Ikke- væ- sent- lig	Projekt anbefa- ling*
Biodiversity and ecosy- stems					
Direct impact drivers of biodiversity loss	klimaændringer, vandkvanti- tet og kvalitet, arealanven- delsen	1	0,5	0,5	Vurde- res in- dividu- elt
Impacts on the state of species	Bestandene af forskellige ar- ter og deres risiko for at uddø	1	0	1	Vurde- res in- dividu- elt
Impacts on the extent and condition of eco- systems	Omfanget og tilstanden af forskellige økosystemer	1	0	1	Vurde- res in- dividu- elt
Impacts and dependen- cies on ecosystem ser- vices	Afhængighed af økosystem- tjenester som f.eks. bestøv- ning	1	1	0	Vurde- res in- dividu- elt

Picture biodiversity

“The variability among living organisms from all sources including, inter alia, terrestrial, marine and other aquatic ecosystems and the ecological complexes of which they are part; this includes diversity within species, between species and of ecosystems.” (UN Convention on Biological Diversity, 2010)

Functionality first

But...

Maintenance costs

Land as a scarce resource

In competition with conventional solutions

Out of sight...

Avoiding 'stupid decisions'
