

AI update from Germany:

Succeed with AI in your production and business processes

ATV Tech Talk webinar with Innovation Centre Denmark, Munich, 20/4 at 13-14.00

Biographies of Speakers

Robert Bosch GmbH

Dr. Christian Daniel

Head of Reinforcement Learning and Planning at the Bosch Centre for AI (BCAI)

Subject: Industrial AI at Bosch

Christian received his PhD from TU Darmstadt in 2016 working with Jan Peters on reinforcement learning algorithms for dynamic robot skills and has worked at Microsoft Research in Cambridge before joining Bosch. Since 2019, Christian Daniel is Head of Reinforcement Learning and Planning at the Bosch Center for AI (BCAI), focusing on bridging the gap between academic excellence and impact in industrial applications. Since 2021 Christian Daniel has taken on the role of Strategic Portfolio Coordinator for AI at BCAI, further strengthening Bosch's focus on industrializing the potential of the technology.

Celonis

Michael Zink

Vice President of Sales Nordic & CIS

Alexander Helfer

Solution Engineer

Subject: How to put AI to work to improve business outcomes

Michael Zink is driving Celonis' growth in the Nordics. Being an industry veteran with +15 years of experience at Salesforce and Oracle, Michael has quickly identified the pent-up demand for Celonis market leading AI-powered enterprise software in the Nordic region. Michael will share the vision of Celonis and why the German unicorn has decided to expand to Denmark.

Alexander Helfer has worked closely with dozens of customers to identify process improvement potential and utilize the AI-driven Celonis Execution Management System to solve process friction with technology. Alexander will not only share his first-hand experience of how companies can realize hidden potential in their processes with the innovation of Celonis, but also the difference he has observed working with German and Danish customers.

About Celonis: Celonis is a German unicorn and the leader in the Execution Management System (EMS) that helps companies unlock capacity to maximize business performance. Headquartered in New York and Munich, Celonis helps industry-leading companies around the world achieve breakthroughs in business execution. The recently opened offices in Denmark allow Celonis to get closer to its existing customers in the region, which include Maersk, Statkraft, Grundfos, Danfoss, Hydro and Neste.
