

Lokal og global talent jagt

sådan gør vi i Aarhus

HEALTHCARE

- E-Health platform
- Electronic Health Record
- Hospital Logistics

INTELLIGENCE & NATIONAL SECURITY

- Emergency Centre
- Police vehicles IT
- Case management

DEFENCE

- Command and Control
- Defence vehicles IT
- Interoperability

PUBLIC & PRIVATE SECTORS

- Smart Public Sector
- Finance
- Energy

LIBRARY & LEARNING

- Library systems
- Learning platforms
- Smart Library

- An attractive, international workplace with highly educated employees
- 940+ employees
- 62% of software developers have a PhD or Master's degree
- 16% of new appointments are former employees re-joining Systematic
- Employees represent 32 nationalities

Our Challenge

HOW CAN WE COMPETE WITH OTHER BIG CITIES IN THE WORLD FOR *IT* TOP TALENTS

Our benefits

- Attractive Work-Life balance
- Flat hierarchy
- Flexible working conditions
- Knowledge sharing
- Socialising at the workplace
- Empowerment and autonomy
- More or less 35-40 workhours/week
- Min 5 weeks paid holiday/year
- **START TELLING THE GOOD STORY!**

Who

Representing approx. 3000+ it-jobs

We all have a common challenge!

- A large need for skilled employees with special technical talents
- Education institutes cannot keep up with demand
- The quality of new graduates are declining
- It is hard to attract international talent to Aarhus

This will influence our ability to grow and force us to outsource and move jobs away from Aarhus

What we do

- **Goal 1:** knowledge sharing events 6-8 times/year starting 2017
- **Goal 2:** “Come Work in Aarhus, Denmark” job fair event somewhere in the world in 2017
- **Goal 3:** create the first of an annual “super it-event” in Aarhus that you cannot NOT go to in 2017

Departures

If we do not succeed!!!

Budskab 1

Hvorfor mister vi 50% af potentialet i starten?

```
</li><a href="index.html">Home</a></li>
</li><a href="home-events.html">Home Events</a></li>
</li><a href="multi-col-menu.html">Multiple Column Menu on Larger Viewports</a>
<li class="has-children"><a href="#" class="current">Header Options</a>
  <ul>
    <li><a href="tall-button-header.html">Tall Button Header</a></li>
    <li><a href="image-logo.html">Image Logo</a></li>
    <li class="active"><a href="tall-logo.html">Tall Logo Image</a>
  </ul>
</li>
<li class="has-children"><a href="#">Carousels</a>
  <ul>
    <li><a href="variable-width-slider.html">Variable Image Width Slider</a></li>
    <li><a href="testimonial-slider.html">Testimonial Slider</a></li>

MAKING A

D I F F E R E N C E

Budskab 2

Vi kunne reducere presset på “it-producenterne” ved at uddanne flere “it-aftager”

Hvorfor er det f.eks. ikke en del af polit, jura og økonomi studiet?

Budskab 3

Vi mangler nogle emner i datalogi og it-ingeniør studierne

Typisk studie indhold:

[Building the Internet of Things with P2P and Cloud](#)
[Computational Geometry: Theory and Experimentation](#)
[Context-awareness](#)
[Cryptographic Computing](#)
[Cryptology](#)
[Functional Programming](#)
[Grundlæggende algoritmer og datastrukturer](#)
[Interactivity and Computer Mediation & Concepts, T](#)
[Interaktive systemer \(2017\)](#)
[Introduktion til databaser](#)
[Introduktion til programmering](#)
[Machine Learning](#)
[Multimodal Interaction](#)
[Oversættelse](#)
[Program Analysis and Verification](#)
[Softwarekonstruktion og softwarearkitektur](#)
[Theory of Algorithms and Computational Complexity](#)

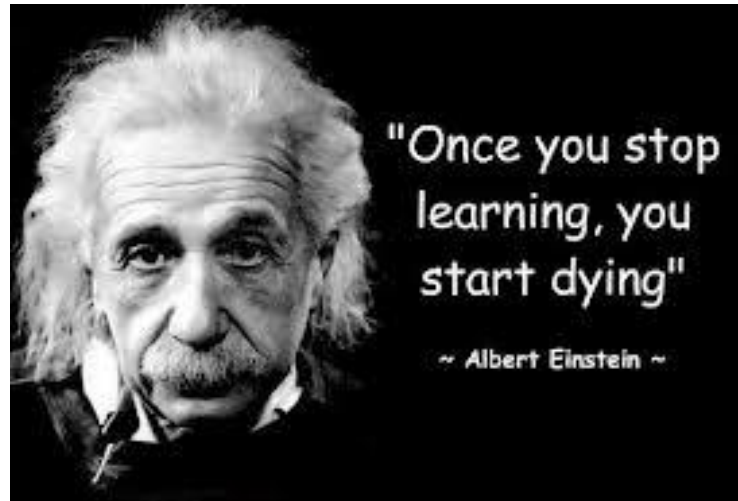

Mangler:

- Det meste on"-abilities"
 - Scalability
 - Reliability
 - Testability
 - Maintainability
- Drift og overvågning
- Stor scala drift
- Store systemer

Vi må uddanne selv, hente hos konkurrenter eller i udlandet –
og behovet vokser

Budskab 4

Mener universiteterne bør satse langt mere på at tilbyde **IKKE** kompetancegivende efteruddannelseskurser

Hvorfor skal vi sende alle pengene til udlandet!

Man er aldrig færdig uddannet!
