ABOUT MYSELF

SAMUEL SCHEER

- 3x Start-up Founder: 30 staff
- 10+ years high tech work experience in Silicon Valley, Switzerland, Israel
- B.A. & M.A. Business Management
- Graduate of Singularity University
- In charge of deep-tech accelerators at:

**INNOVATION
CENTRE
DENMARK**

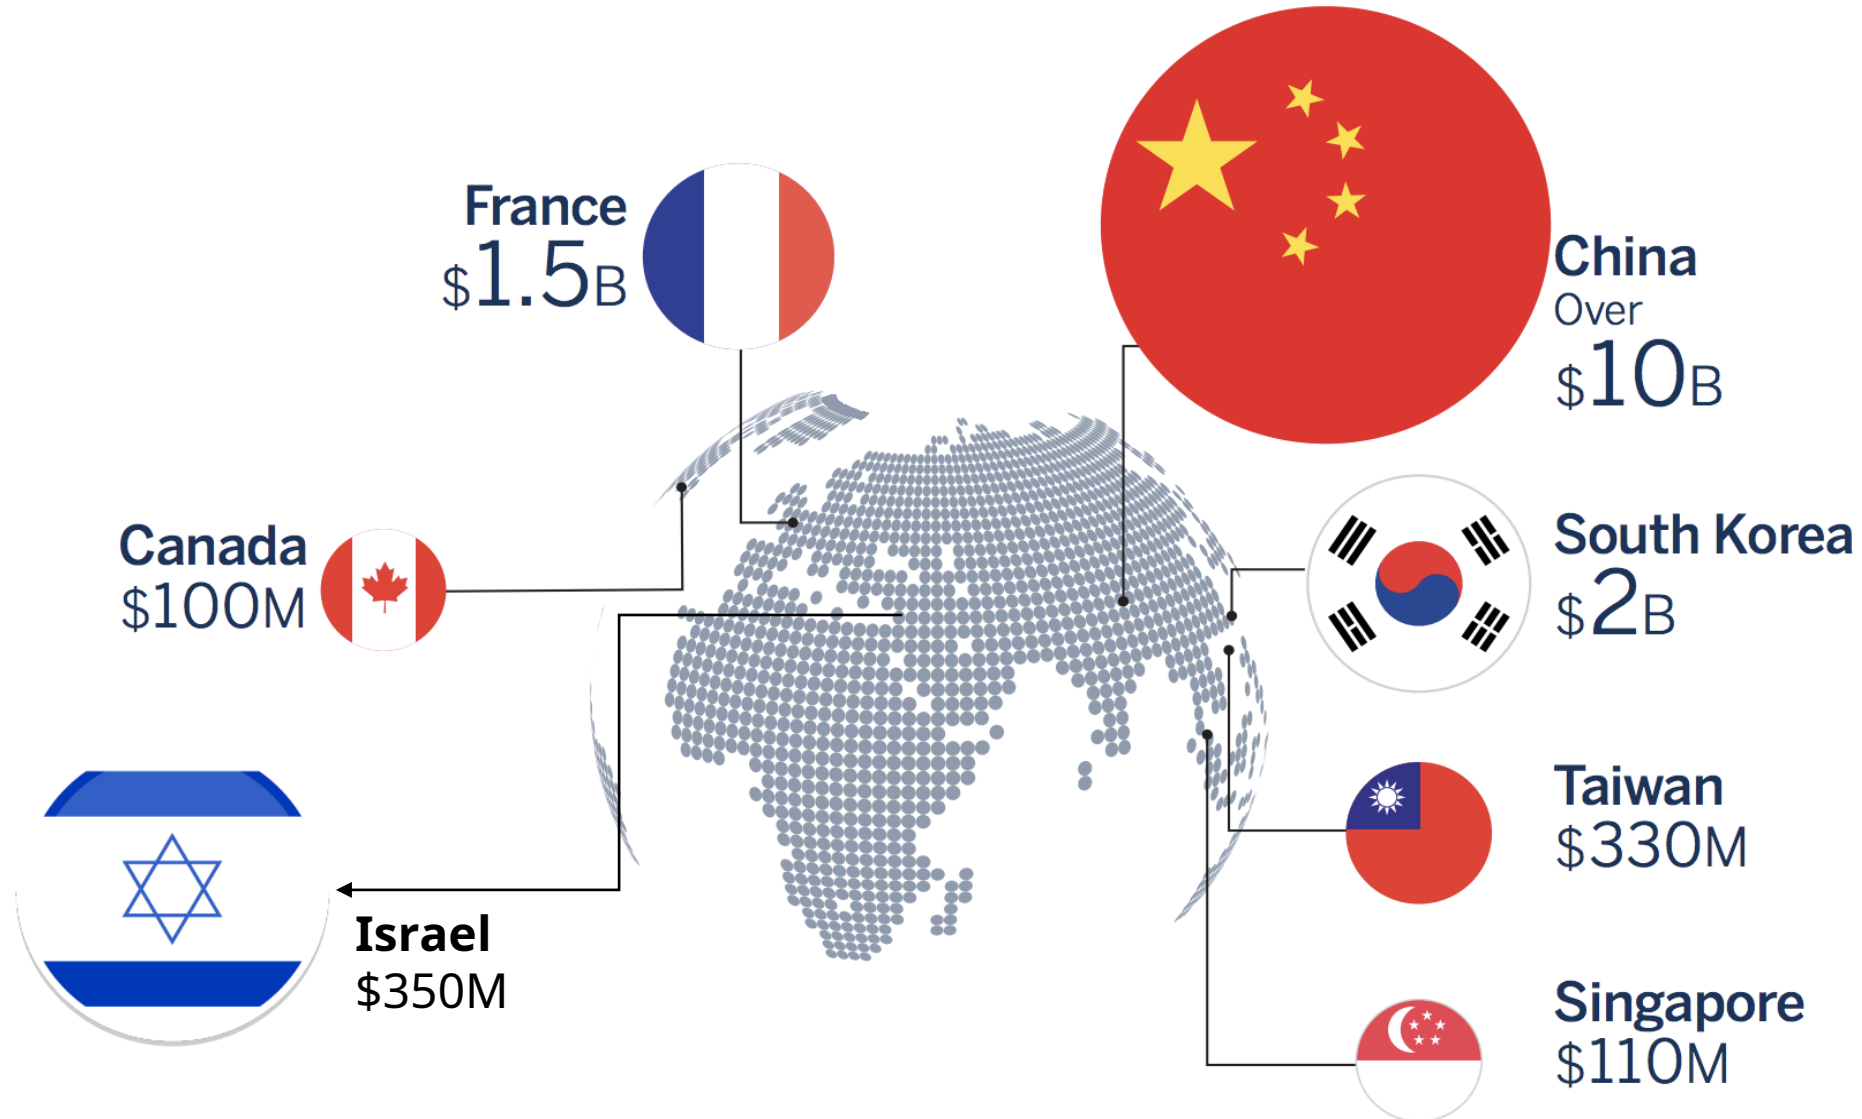

HWZ
Die Hochschule für Wirtschaft
in Zürich

COVID-19 EFFECTS ON ISRAELI POLITICS & ECONOMY

- Today: 2'900 new cases mostly in certain areas
- COVID-19: approx. 1'600 new cases/day in past 2 months
- Education: school started this week physically - severely challenged to deal with sudden move to digital
- Economy: high tech stable – general economy way down
- Unemployment: come down after all time high, still approx. 20%
- Political situation: unstable, currently no budget
- Travel: now possible from green countries (incl. Denmark) but only for Israelis or pre-approved foreigners – no real opening foreseeable yet

Global competition over leadership in AI is increasing, and governments are making massive investments

ISRAEL IS LEADING THE WAY IN ARTIFICIAL INTELLIGENCE

> 1'000 AI STARTUPS

> DKK 10.5 BILLION RAISED IN 2018,

**BILLION DKK ANNUAL
EXPORTS**

> 2.5 BIO. DKK GVMT INVESTMENT

**WORLD LEADING AI
ACADEMIC RESEARCH**

**PRODUCTS USED WORLDWIDE BY
ALL FORTUNE 100**

**4'000 AI
PROFESSIONALS**

**>15 MULTINATIONALS
OPERATING AI CENTERS**

COMPARISON NORDICS & ISRAEL IN AI ECOSYSTEM

	ISRAEL	NORDICS
Start-ups	➤ 1'000, mostly B2B, working internationally	60-80/country, early stage
Investments	> 10 bio. USD since 2012, remain bullish	Tens of millions invested, not as specialized, hesitant
Corporates	Few internationally competitive, start-up corporates emerging	High number of internationally competitive in traditional domains
Academia	Research & Technology transfer world leading	Research world leading, technology transfer not
Incubators/ Accelerators	Established over many years	Emerging

ISRAELI CIVILIAN AI STRENGTHS

Recommendation Systems

mathematical models helping to predict and recommend user preferences.

Outbrain Raised 144 \$M

Text Analytics & NLP

models that help recognize and analyse the content and context of speech and text.

Twiggle Raised \$35 m

Chatbots, Robotics & Assistants

technology based on computer imitating human interface and mobility.

Lemonade Raised 180 \$M

Computer Vision

methods of acquiring, processing and analyzing digital images, and extraction of high-dimensional data.

Acquired for 15.3 \$B

Unspecified Technology

companies which didn't specify the AI or Machine Learning technology used in their product.

Sound Recognition & Analysis

models that analyse and process sounds, for applications such as voice assistants.

Gong Raised 26 \$M

Data Science & Analysis

statistical models for data mining and analysis.

Gett Raised \$597 m

CASE STUDY: CHEQ

- **Industry:** Marketing
- **Solution to date:** Keyword approach – blocking lists
- **Problem:** leaves out potential reach, doesn't work for niche audience word use
- **New solution:** Using AI & NLP to **understand** page content, then decide if to serve ad
- Company currently:
 - USD 5 mio. Venture backing
 - 50 employees
 - **Expanding globally**

The logo for CHEQ, featuring the word "CHEQ" in a bold, white, sans-serif font centered on a bright pink rectangular background.

CASE STUDY: MOBILEYE

- **Industry:** Automotive
- **Solution at date of invention:** none commercially available
- **Problem:** smart driver assistance takes massive data storage & processing, not available in car
- **New solution:** Using AI & NLP to analyse & build mathematical models for millions of hours of driving, then compress
- Company currently:
 - USD 15 bio. Exit
 - 1'200 employees
 - **Expanding globally**

DANISH BUSINESS COMMUNITY IS INCREASING ACTIVITIES IN ISRAELI AI

Innovation Centre Denmark
presents

AI Health Master Class in Israel

Join our intensive training workshop in one of the leading AI hubs

September 8-12, 2019
