Innovating for a sustainable future
- powered by good bacteria

Thomas Schaefer, EVP R&D and CSO
ATV Conference, November 12, 2019
Our purpose
We deliver natural innovative solutions that address global challenges by advancing food, health and productivity
Good bacteria enabling a resilient food system from farm to fork
Good bacteria enabling a resilient food system from farm to fork

**GOOD HEALTH**
- Healthier food with clean label
- Next generation health

**BETTER FARMING**
- Natural plant protection
- Better quality silage
- Animal nutrition

**LESS WASTE**
- Food quality
- More efficient production
- Less waste
Sustainability is our DNA

Innovation

Focus

Engagement

Diversity
Agricultural efficiency has to increase by 70%.

Increased burden on health care system.
Our solution
12% higher yields
by using good bacteria

Our solution
Keep food safe and fresh
by using good bacteria

Our solution
Probiotics
Good for your health and societal productivity
How we work with the UN Sustainable Development Goals

Impact

Direct impact
Strong opportunity

Indirect impact
Limited opportunity
How we work with the UN Sustainable Development Goals

2 ZERO HUNGER
Reduce 1.2 million tons of global yogurt waste = the annual consumption in Germany

3 GOOD HEALTH AND WELL-BEING
Launch 6 products with positive health effects

12 RESPONSIBLE CONSUMPTION AND PRODUCTION
Cover 25 million hectares of land = the size of UK

82% of our revenue positively contributes to the SDG’s
The future is powered by good bacteria
